DETAILED ACTION

Election/Restrictions

This application contains claims directed to the following patentably distinct species of the claimed invention:

Species I, Fig. 2 (sheet sub-mucosa);
Species II, Fig. 3 (sheet sub-mucosa);
Species III, Fig. 4
Species IV, Fig. 5
Species V, Fig. 6-7
Species VI, Fig. 8-9
Species VII, Fig. 10-16
Species IX, comminuting sub-mucosa (previously elected).

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, at least claim 27 is generic.

Applicant is advised that the reply to this requirement to be complete must include identification of the claims encompassing the elected invention and the support for the elected invention in the specification. New claims have been added, supports for these new claims in the specification is required to indicate that the new claims do not introduce new subject matters.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the

Art Unit: 3773

inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
